Primary Care Copay	\$25
Specialist Copay	\$50
Emergency Room Copay	\$250
Urgent Care Copay	\$75
Preventive Care	No charge
Generic Drugs	\$10 copay
Brand-Name Drugs	\$40 copay

How Your Deductible Works

The deductible is the amount you pay for covered health care services before your insurance plan starts to pay. For example, if you have a \$1,500 deductible, you pay the first \$1,500 of covered services yourself. After you pay your deductible, you usually pay only a copayment or coinsurance for covered services, and your insurance company pays the rest.

How Coinsurance Works

After you meet your deductible, you and your plan share the cost of covered services. Your share is called coinsurance. Under this plan, you pay 20% and BlueShield pays 80% of covered costs until you reach your out-of-pocket maximum.

Out-of-Pocket Maximum

The out-of-pocket maximum is the most you will have to pay for covered services in a plan year. After you spend \$6,000 on deductibles, copayments, and coinsurance, your health plan pays 100% of covered services for the rest of the plan year. This limit never includes your premium, balance-billed charges, or health care your

plan does not cover.

Covered Services Detail
